PROFILE

Software Engineering graduate (BSSE, FUSST) and applied-AI practitioner with four-plus years across full-stack engineering (.NET / ASP.NET MVC, React, Flutter, React Native), software QA and technical project management. Leads delivery as **Software Project Manager** at Friendsware Solutions and co-founded **Autom8X Systems**, an AI-automation and web agency with 20+ repositories shipped across healthcare, real estate, e-commerce, hospitality, legal and construction-tech. Author of a DOI-registered study comparing zero-shot, few-shot and chain-of-thought prompting; currently extending into machine learning and formal verification. Seeking a Master's in Software Engineering with a focus on applied AI.

20+ repos shipped

DOI published research

IELTS 8.0 (C1)

IBM PM & ML certified

WORK EXPERIENCE

Software Project Manager

03/2026 – Present

Friendsware Solutions — Islamabad

- † Lead delivery of client and internal products across .NET/ASP.NET, Flutter, React Native, Azure and Plesk hosting.
- † Primary bridge between engineering and clients: documentation, QA oversight, stakeholder communication.

Co-Founder & AI Automation Engineer

09/2025 – Present

Autom8X Systems — Remote

- † Co-founded and scaled an AI-automation and web agency; shipped sites and products for healthcare, real estate, e-commerce, hospitality, legal and construction-tech clients.
- † Built LLM-integrated features such as **Aria**, a voice AI receptionist, applying and evaluating zero-shot, few-shot and chain-of-thought prompting in production.
- † Recent work: NumidAI building-performance simulator, DrawToEstimate supplier marketplace prototype, MedcureRS landing template, and the agency's React/TypeScript portfolio site.

Project Manager Intern

02/2026 – 03/2026

Friendsware Solutions

- † Supported end-to-end project management across active client engagements; promoted to Software Project Manager.

.NET Developer Intern

07/2025 – 09/2025

Friendsware Solutions — Gulberg Greens, Islamabad

- † Shipped features in ASP.NET MVC, C# and Tailwind CSS; owned database design, debugging and authorisation logic.

Software QA Engineer Intern

07/2023 – 09/2023

Quest — Islamabad

- † Executed unit, coverage and black-box testing across the software QA lifecycle.

SELECTED PROJECTS

SignLingo Final-year project: AI-powered sign-language recognition system. <i>AI · Computer Vision</i>	Aria — Remote Desk Assistant Voice-enabled AI receptionist with real-time voice I/O. <i>Groq · Gemini · JS</i>
NumidAI Platform Interactive building-climate simulator: rules-based engine, results dashboard, ranked passive-design recommendations. <i>TypeScript · React</i>	C# to UPPAAL Translator Converts C# code into UPPAAL timed-automata models; GUI with xUnit coverage of requirements and domain generation. <i>C# · xUnit · Formal verification</i>
Iris Classification scikit-learn logistic regression on the Iris dataset; 80/20 split, 100% test accuracy. <i>Python · pandas · Jupyter</i>	PharmAudit Pharmacy audit management MVP with full-stack CRUD and reporting. <i>React · Express · SQLite</i>
DrawToEstimate Marketplace Clickable supplier marketplace prototype: slab listings, compare and quote flow, supplier dashboard. <i>HTML · CSS · JS</i>	MedcureRS · Murtaza Medical · DGC Rx Healthcare web platforms: branded landing template, WhatsApp-API booking and digital prescriptions. <i>HTML · JS · WhatsApp API</i>
VESSEL · VACUO · Realtor Site Commerce and lead-gen storefronts, one with an integrated AI assistant. <i>TypeScript</i>	Autom8X Portfolio · Admin Dashboard Agency marketing site and a custom analytics admin panel. <i>React · TypeScript · Vite</i>

EDUCATION & CREDENTIALS

EDUCATION

BSc Software Engineering

Foundation University School of Science & Technology, Rawalpindi
09/2021 – 09/2025 · CGPA 3.12 / 4.0
FYP: SignLingo — AI sign-language recognition

SSC Technology

Dr. AQ Khan College of Science, Bahria Town
Completed 2020

CERTIFICATIONS

Introduction to Project Management — IBM / Coursera (09/2026)
Exploratory Data Analysis for Machine Learning — IBM / Coursera (09/2026)

PUBLICATION

Prompt Engineering: Techniques, Empirical Study, and Future Directions. Zenodo preprint, 2026. DOI 10.5281/zenodo.22340142

ARSENAL

AI & RESEARCH	Prompt engineering, LLM evaluation, Groq / Gemini / OpenAI-class APIs, scikit-learn, pandas
ENGINEERING	C# / .NET / ASP.NET MVC, React, TypeScript, JavaScript, Node / Express, Python, Flutter, React Native, Tailwind, GSAP
DATA & CLOUD	SQL Server, SQLite, Azure, Vercel, Netlify, Plesk, WhatsApp Business API
DELIVERY	Agile / Scrum, Kanban, ClickUp, Jira, Git / GitHub, Figma, QA (unit, black-box, coverage)
LANGUAGES	Urdu (native) · English C1 (IELTS 8.0)
